Dear Susan and all of our friends of ABWM
of PA and DE,

You have been instrumental in helping people have access to clean water!

As a new year unfolds and we celebrate our accomplishments we want to let you know how grateful we are for Water of Blessing, how honored we feel to have your trust, and how your ongoing support is impacting lives and inspiring us to keep working for better health!

In rural Nicaragua, families get their water from wells, rivers, or natural springs. However, most times these open water sources are contaminated and entire families, especially children, suffer diarrhea and other water-borne diseases. Thanks to your gift of \$15,000.00 in October of last year, vulnerable people are gaining access to clean drinking water and hygiene education through AMOS' W.A.S.H. (Water, Sanitation, and Hygiene) Program!

Thanks to you, moms like Johanna Lopez, living in the rural community of Apantillo, Matagalpa, are able to see their children grow healthy:

"My children frequently had diarrhea. Now with this water filter, we are drinking clean water and our health has improved. I'm so grateful with AMOS and all the supporters who made this possible!" Johanna, a mother of 2 children under 5 years old, told us.

Because of wonderful supporters like you, we have been able to install more than 1,300 water filters in 21 rural communities since the program began.

Thank you, ABWM of PA and DE, for sharing your resources to make sure children, pregnant mothers, and entire families living in remote, rural communities of Nicaragua have access to clean water and hygiene education to prevent diseases.

Your gift is helping create positive change in these communities and giving thousands of people hope for the future!

Sincerely grateful,

DAVID & Laura

Dear Susan and
ABWM of PA and DE,
Thank you so much
for helping families
have access to clean water and
hygiene education!
This prevented many
children from having
diarrhea, and other
illnesses. Thanks
for walking together
with us to serve
in Jesus' name!
