

Because of you, we can prevent hundreds of babies in Nicaragua from getting Zika!

Dear Susan and all of our friends at ABWM of PA and DE,

We could not be more grateful for your compassion and generosity!

Your gift last year is helping us to prevent precious babies from suffering the negative consequences of the Zika virus. You are making a difference that will prevent a lifetime of suffering for these babies and their families!

Your support of the Zika Prevention Project is benefiting thousands of people in Nejapa and nearby communities, and is helping do the following:

- Organize neighborhood prevention circles, because preventing the spread of Zika will require a whole neighborhood to work together.
- Train and supervise local volunteers to take action to eliminate mosquito breeding sites, because mosquitoes transmit the virus.
- Activate a network of people to immediately refer anyone with symptoms of Zika to get tested.
- Work most closely with pregnant women so they know what to do to avoid mosquito bites.
- Encourage couples who might get pregnant soon to understand why it is safer to avoid pregnancy until the epidemic subsides.

ABWM of PA and DE, your support means babies can be spared from being born with microcephaly or other neurological problems, and have a chance of a healthy, happy life. It means pregnant moms are not alone during this emergency, and can have hope for their children.

Thank you so much for working with us to help prevent the spread of Zika in Nicaragua! You are truly a blessing to the families we serve.

Sincerely grateful,

DAVID & Laura

David Parajón, M.D., M.P.H., M.B.A.
Executive Director

Laura Chanchien Parajón, M.D., M.P.H.
Medical Director
