

Would you like to help one of American Baptist Churches in Pennsylvania or Delaware's smaller congregations move into its own church facility? Would you like to help one of our PA/DE congregations that are struggling with building and maintenance problems? Or perhaps your church is one that needs help?

This is a call for the Baptists in Pennsylvania and Delaware to step forth as in the days of Gideon! Who is willing to be counted among those who will become a part of Christ's Church in action?

KINGDOM BUILDERS is a volunteer program to help small churches acquire worship and Christian Education Facilities - by actually building, repairing, remodeling and improving facilities. Escalating costs have made it almost prohibitive for some congregations to afford better facilities. We must find a new way; KINGDOM BUILDERS is the answer.

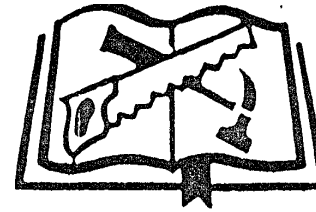

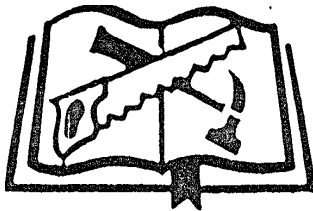

Quite a number of ABC congregations need help maintaining their church homes. Carpenters, painters, electricians and general helpers could provide the assistance needed in many situations. Request for assistance should be channeled through respective Area Ministers.

We need Baptists - teens, women, and men - who are willing to commit their gifts and time to work on a project in one of our two states. Please read through this bulletin and see what it's all about. And I truly hope to see you in one of our building projects over the next year or so.

KINGDOM

"Unless the LORD builds the house, they labor in vain that built it" Psalm 127:1a

BUILDERS

KINGDOM BUILDERS is a volunteer service organization which will provide labor and leadership for the construction of new churches, and assistance to congregations which need help in repairing or renovating their facilities. Teens, women and men of our Pennsylvania and Delaware congregations are invited to volunteer time, skills and tools to assist member congregations in need. It is also anticipated that those who are able and willing may respond to in-state disaster situations, and perhaps even those out of state.

Information from those who volunteer will be entered into a central computer database. When a project is approved, volunteers will be identified from the database according to availability, appropriate skills and proximity to the project.

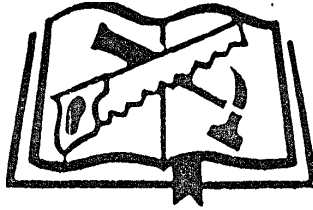

The Organization consists of a statewide Coordinator, area Coordinators, a secretary and a Treasurer who will meet annually. Conference calls may handle concerns as necessary. Disposal of funds will require the State Coordinator and Treasurer's signature.

Each area coordinator is responsible for actual implementation of a project in his area, and together they will serve as a committee to prioritize requests for projects, if that is necessary. I sincerely hope that hundreds of volunteers will enlist with Kingdom Builders. Whether you can give one day or one week, You Are Needed! Help us build new churches; help us assist churches with building needs. Use the gifts God has given you.
